

Hurry! The mean corona viruses have to be scribbled out!

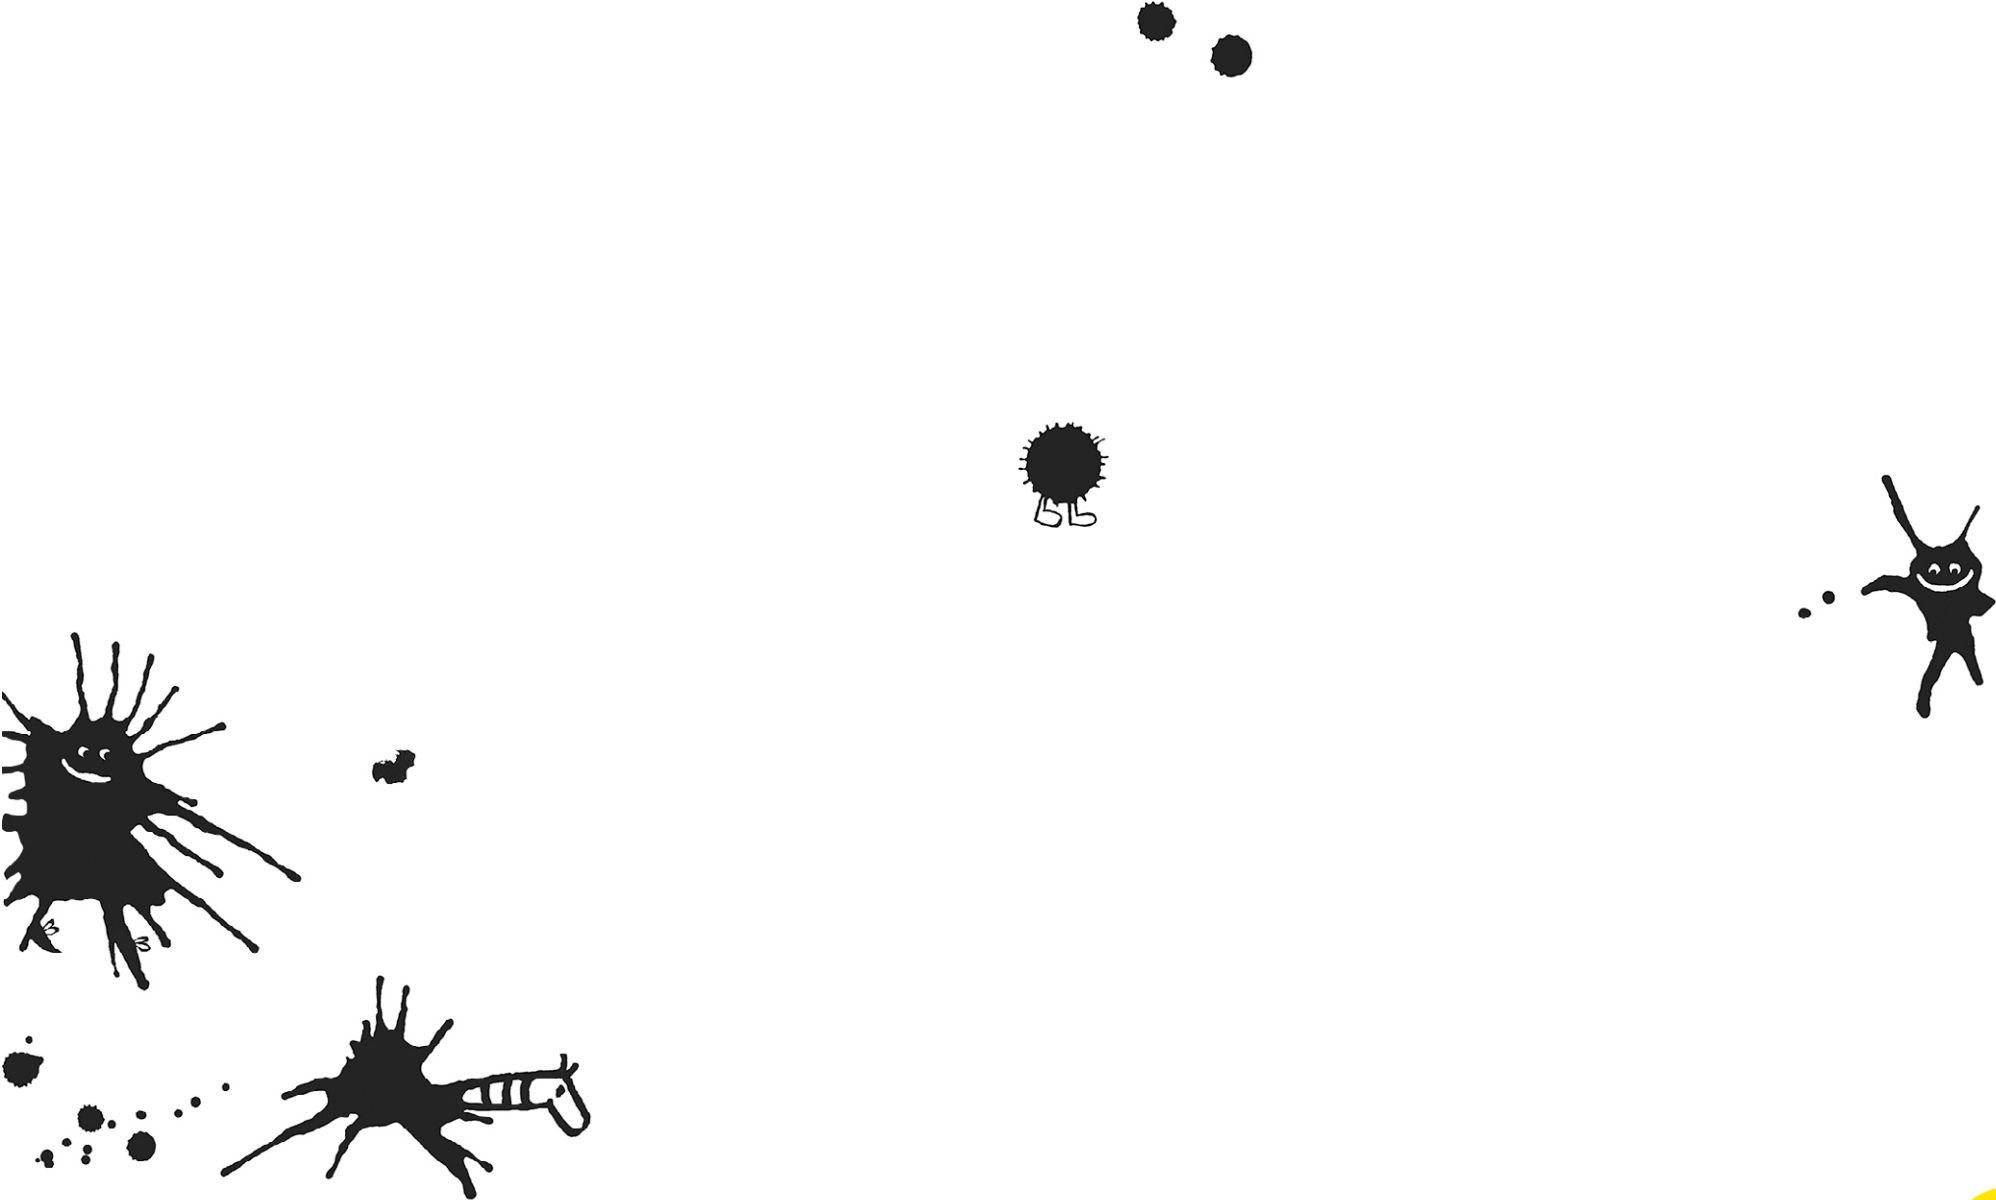

Finally everybody is allowed to get out! Where does this one go?

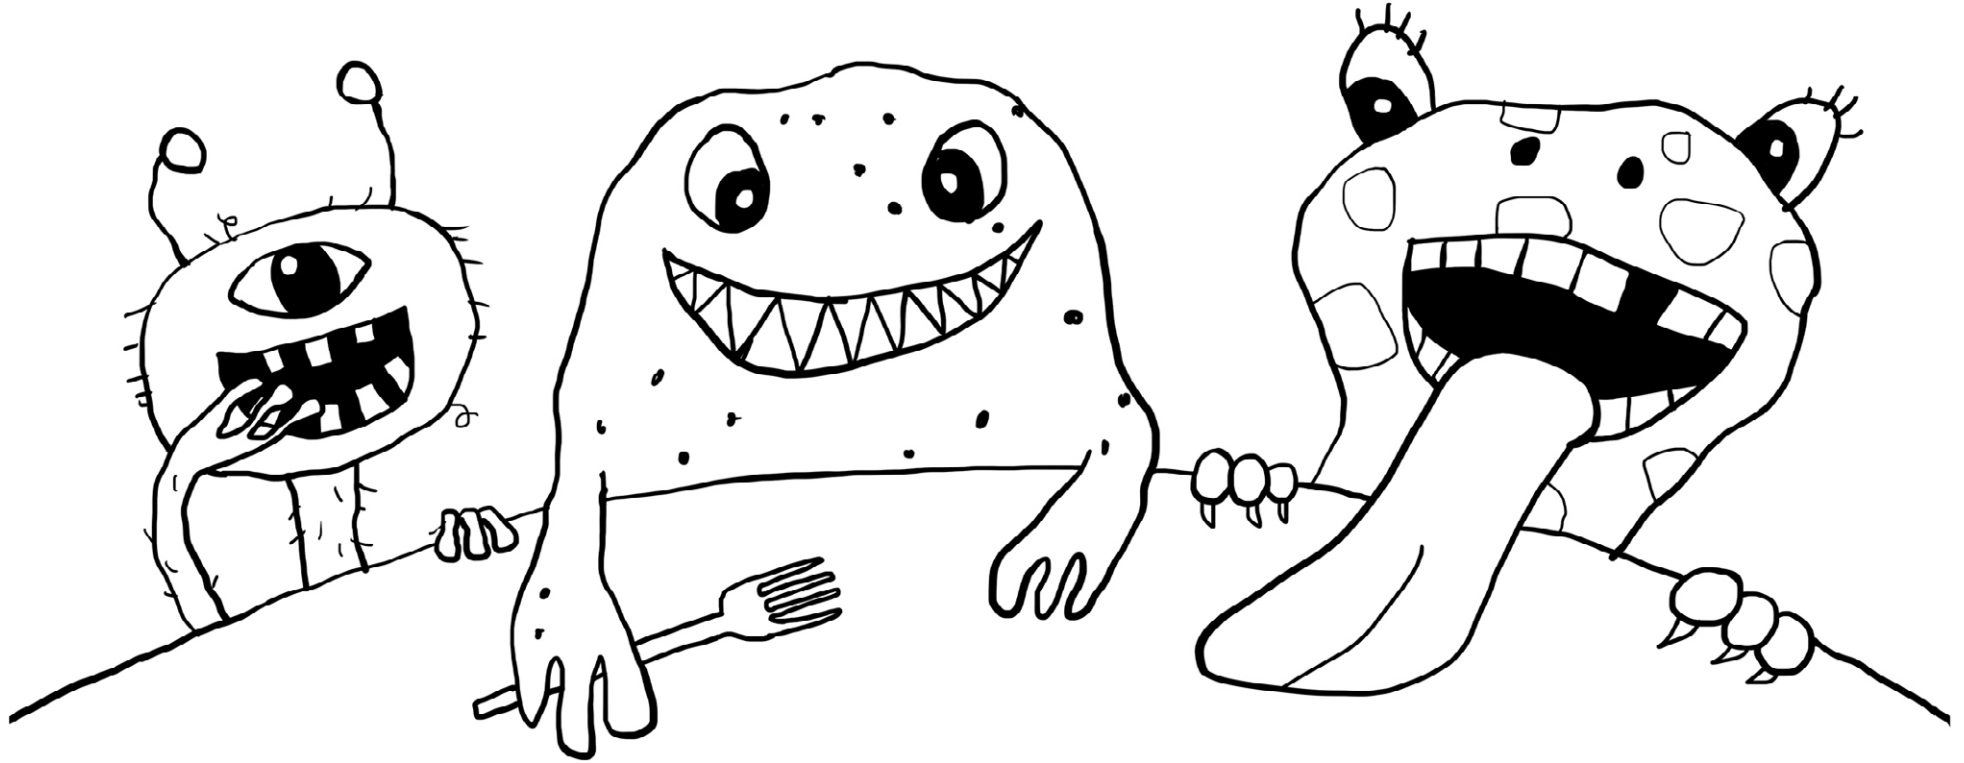

Look at them! They are making everything pretty and colorful!

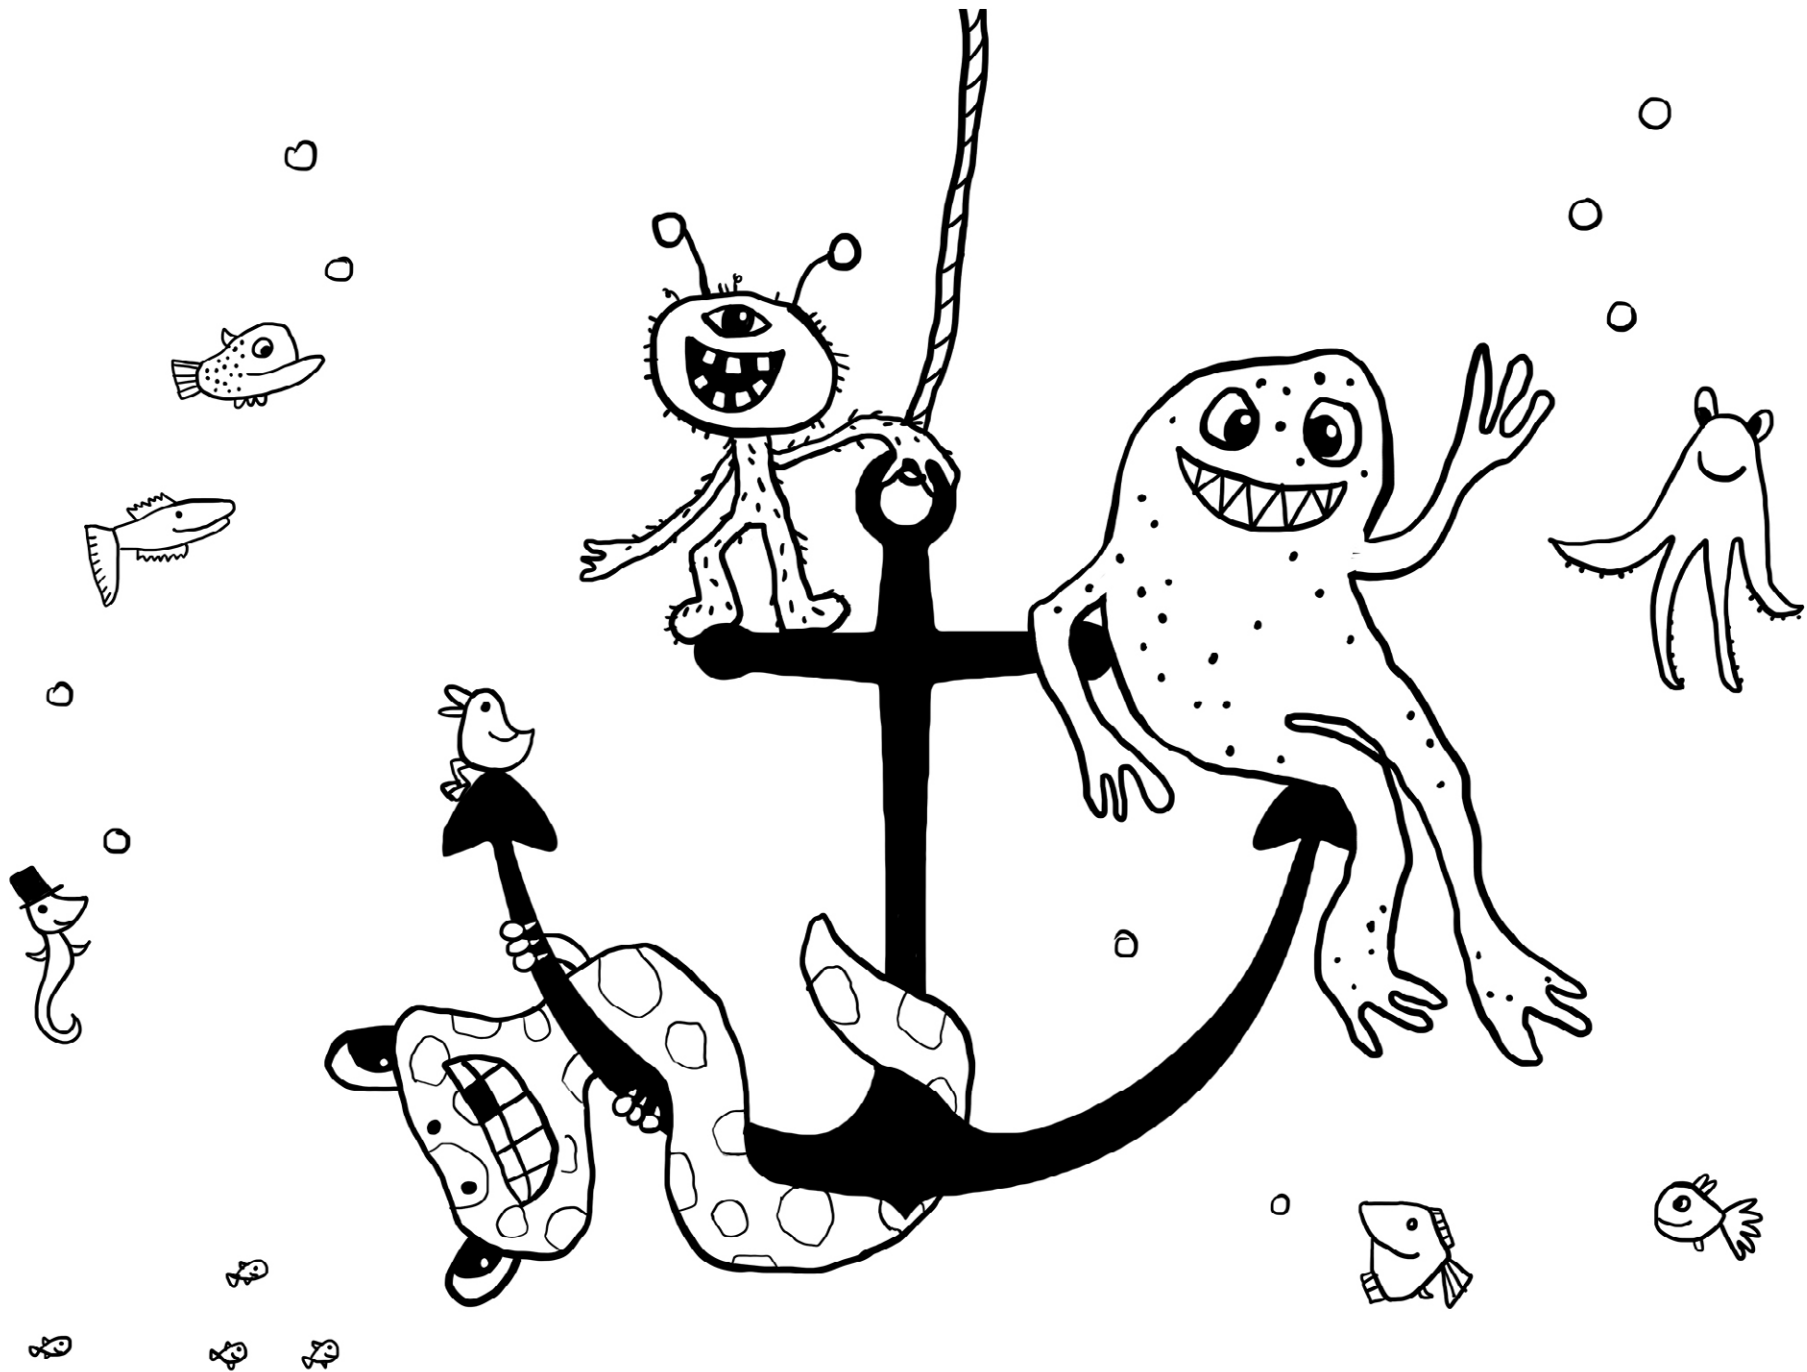

Do blobs and spots and make them become a bunch of viruses.

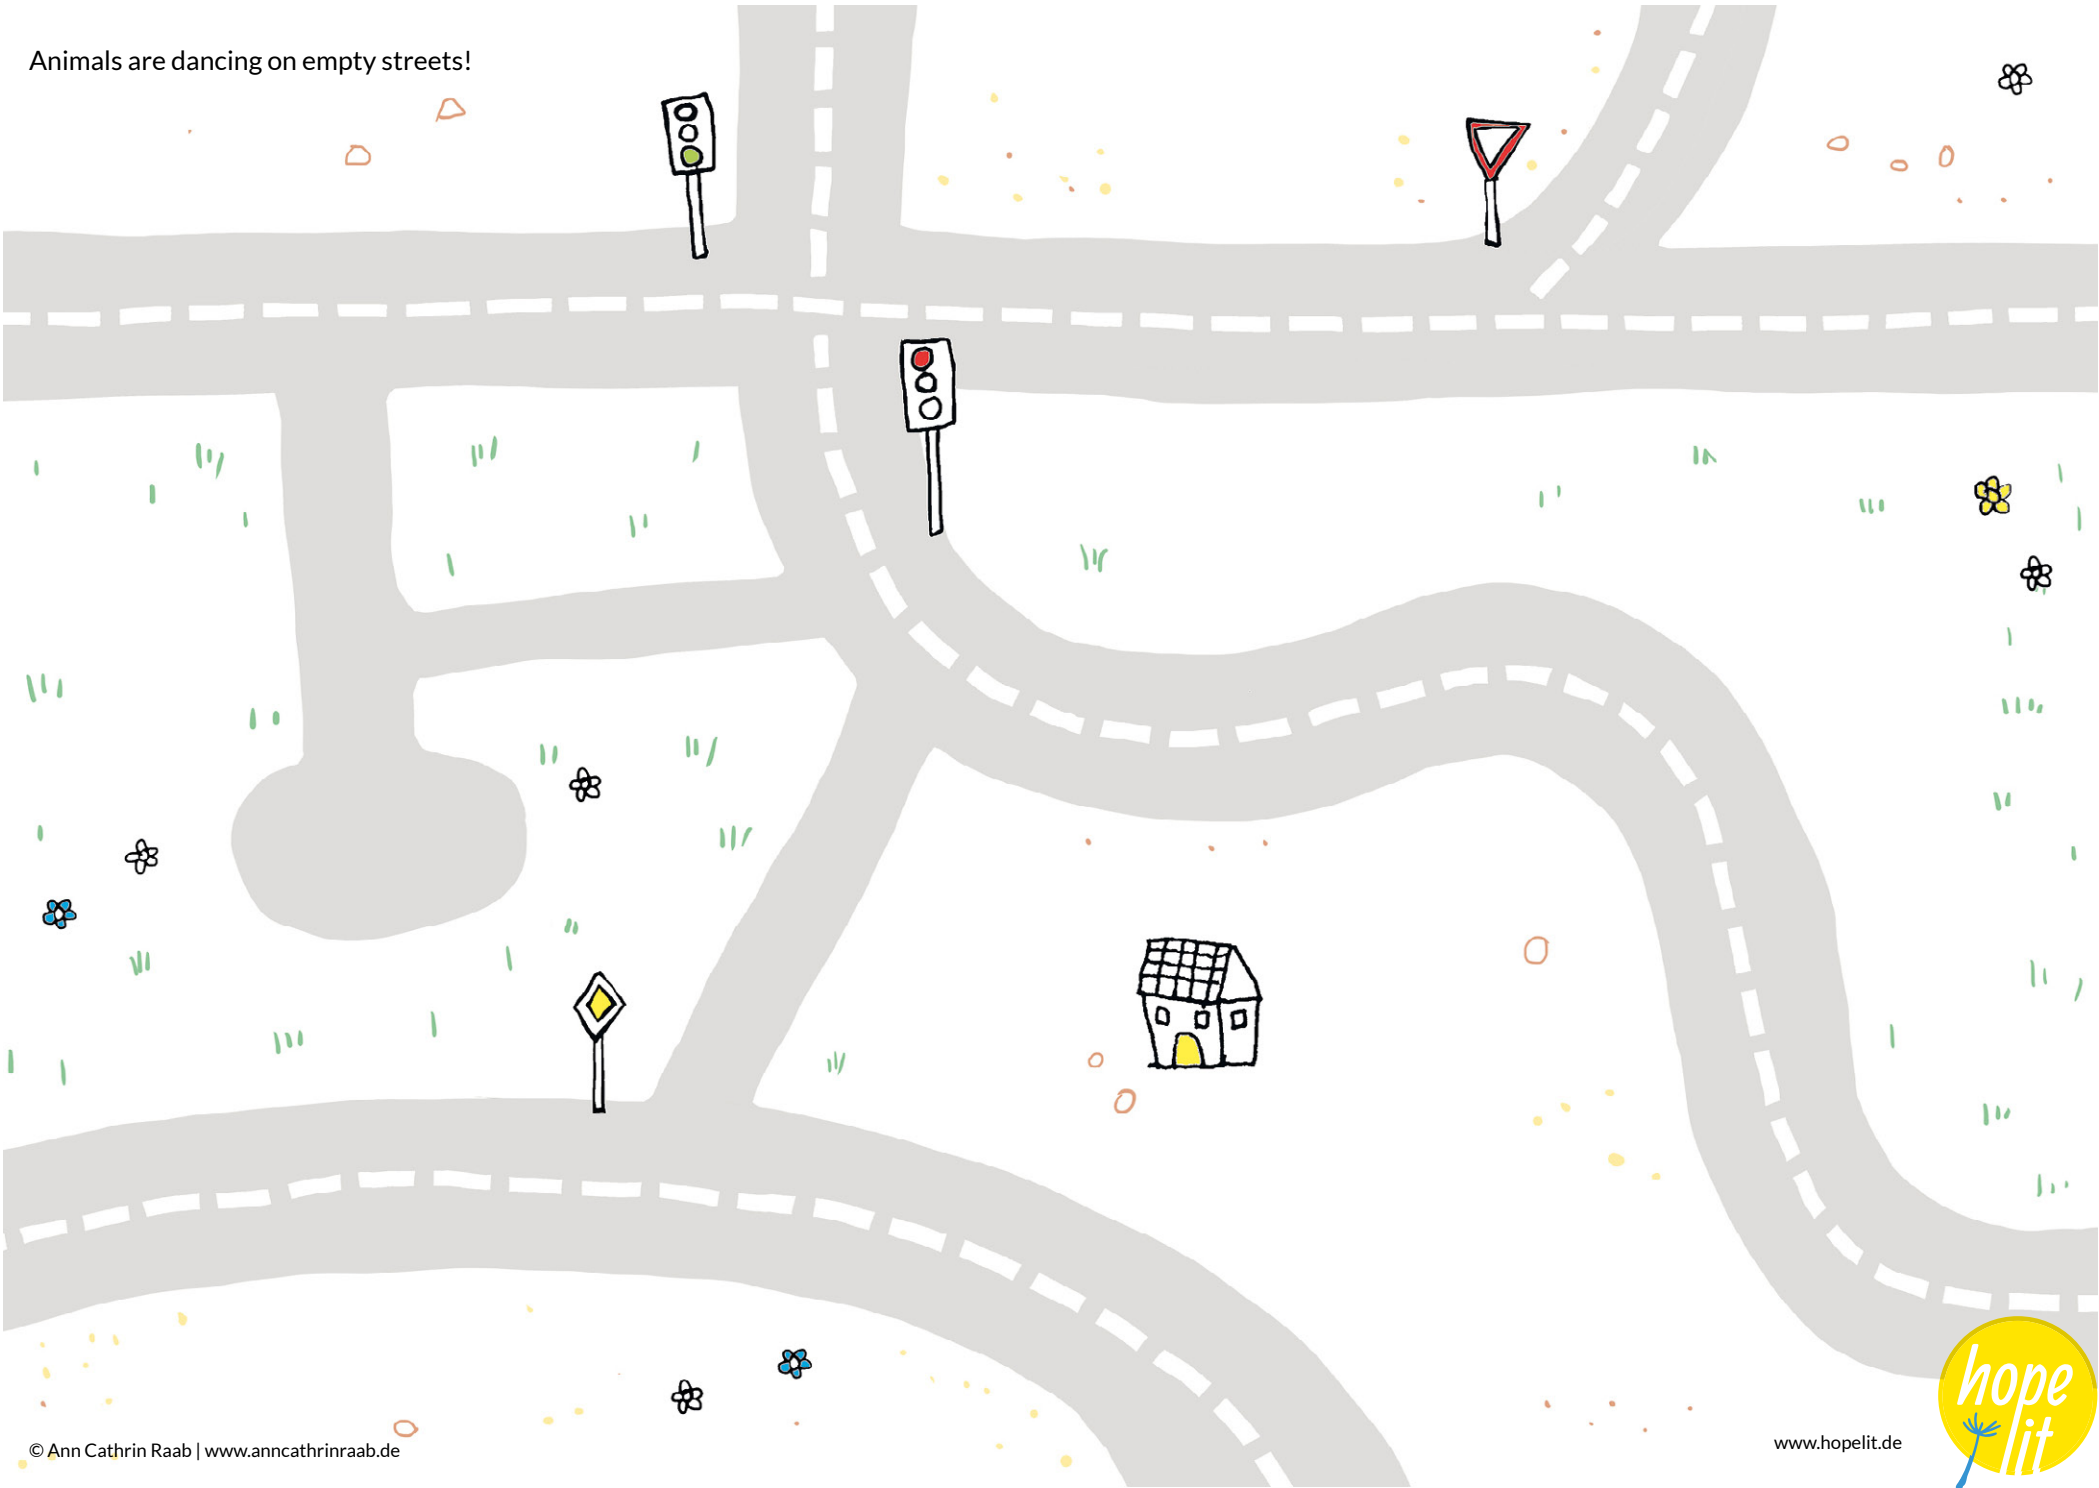

Draw a lot of bacteria and viruses that are terribly afraid of the monsters who are going to eat them all!

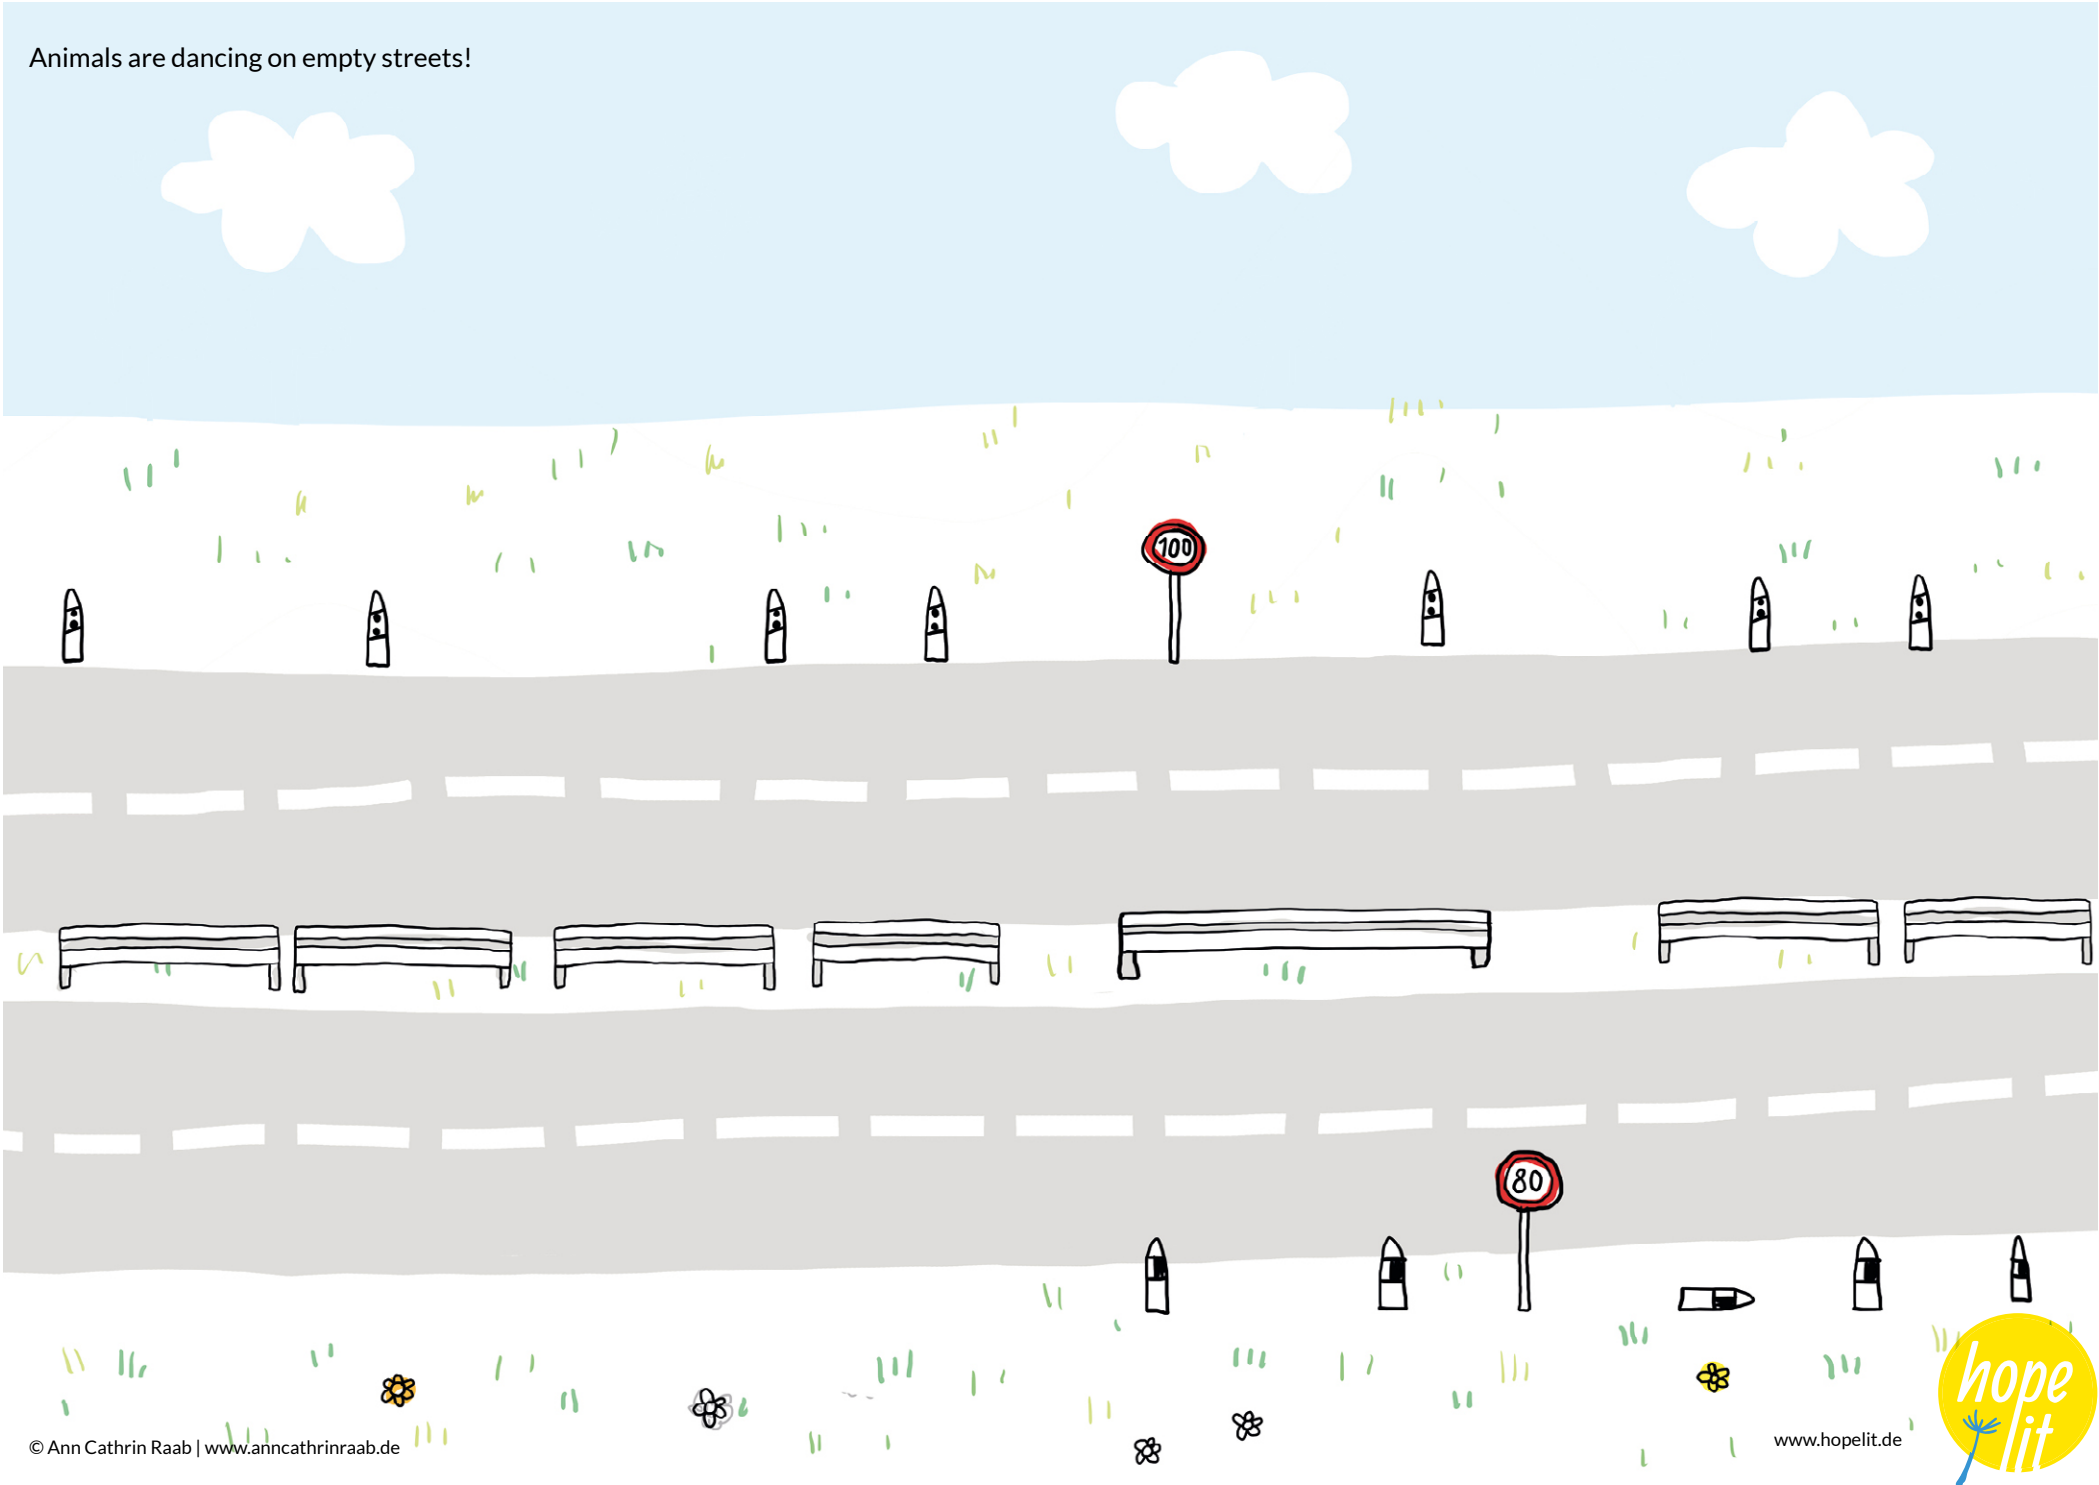

Animals are dancing on empty streets!

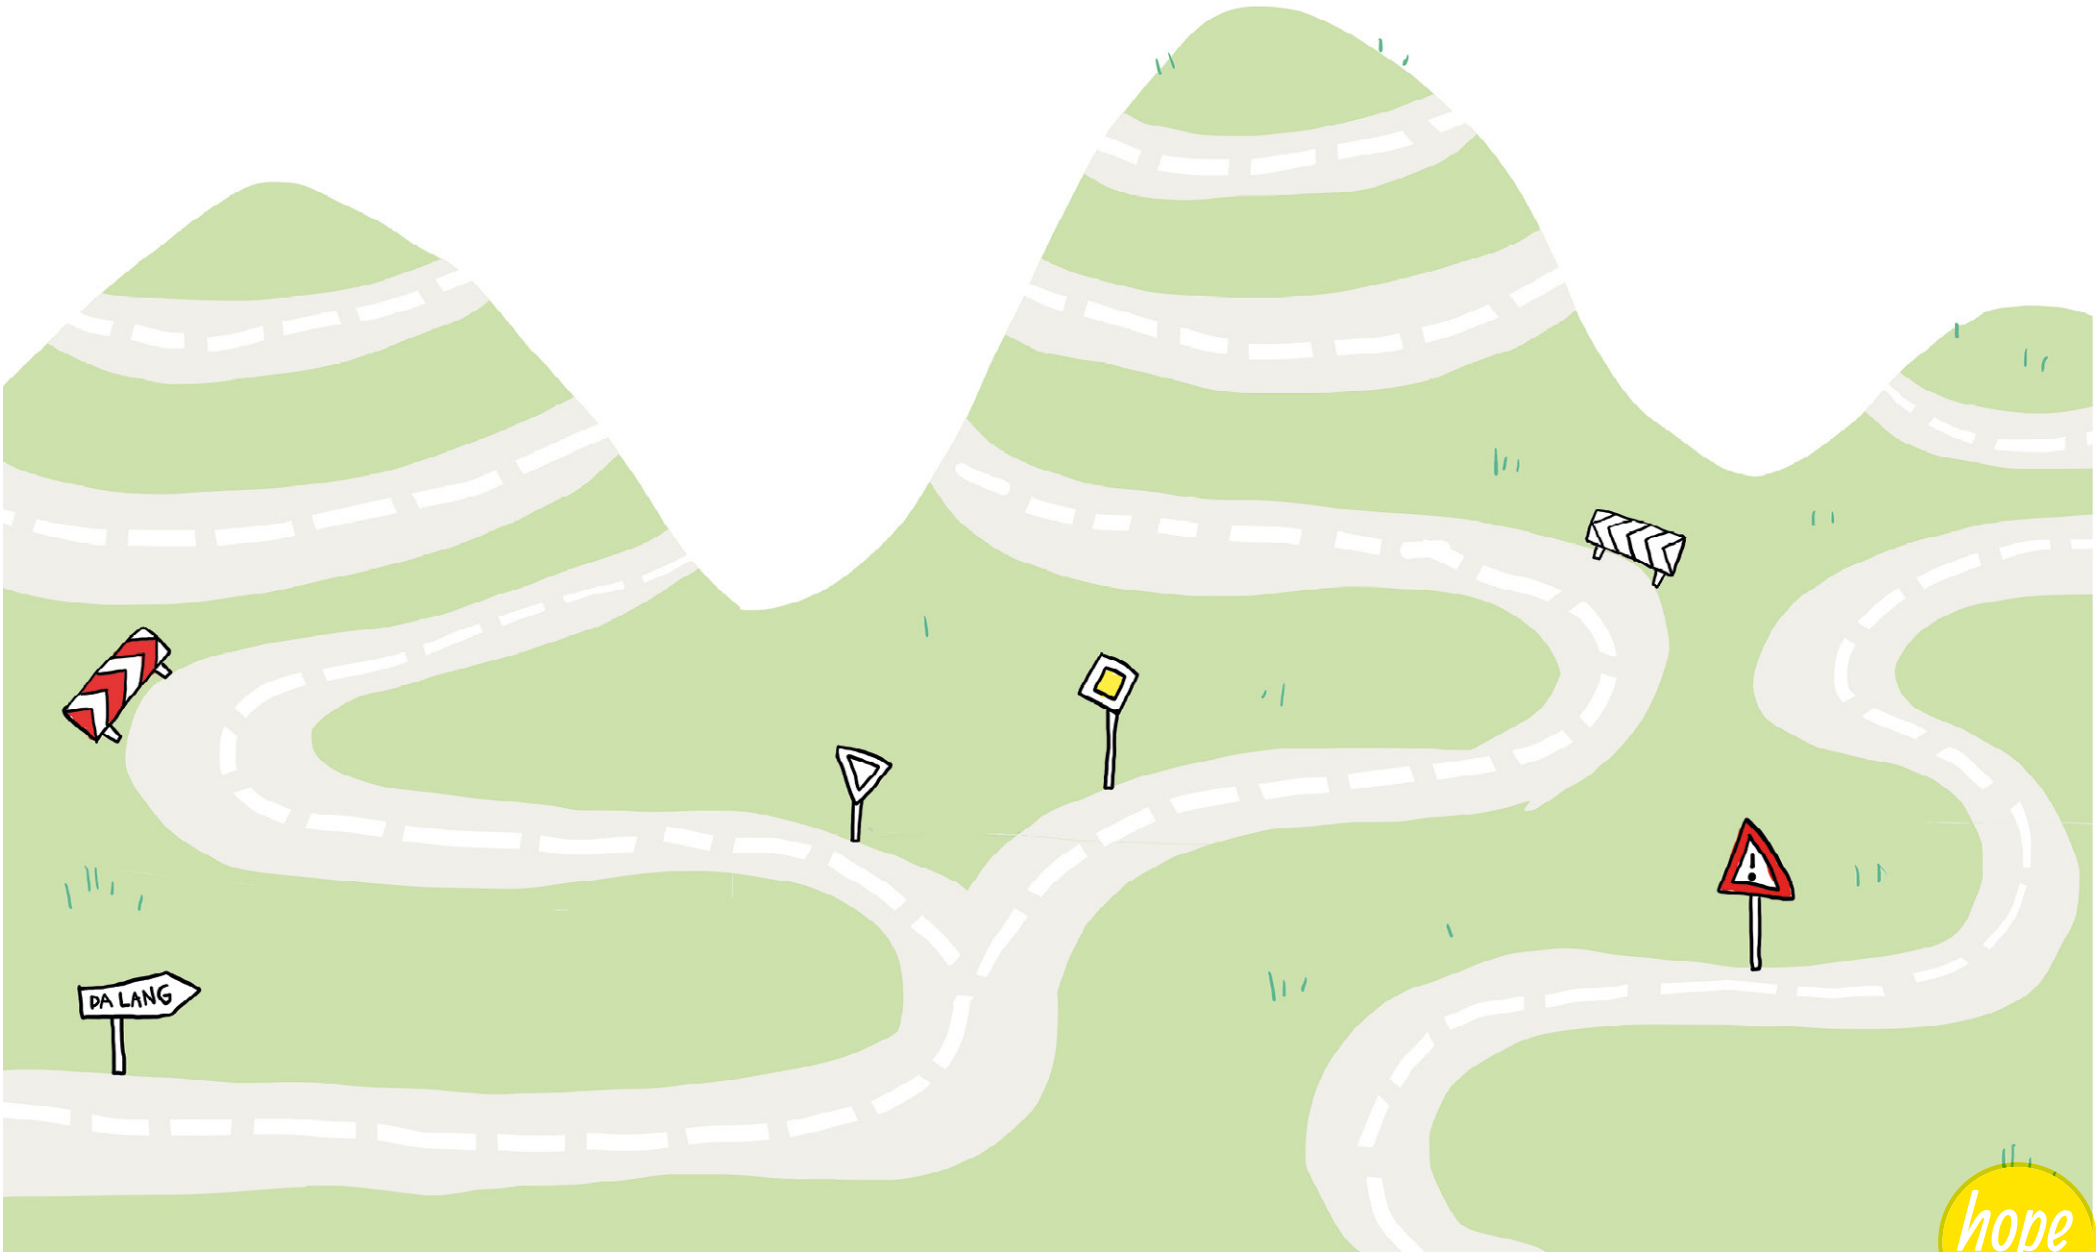

Animals are dancing on empty streets!

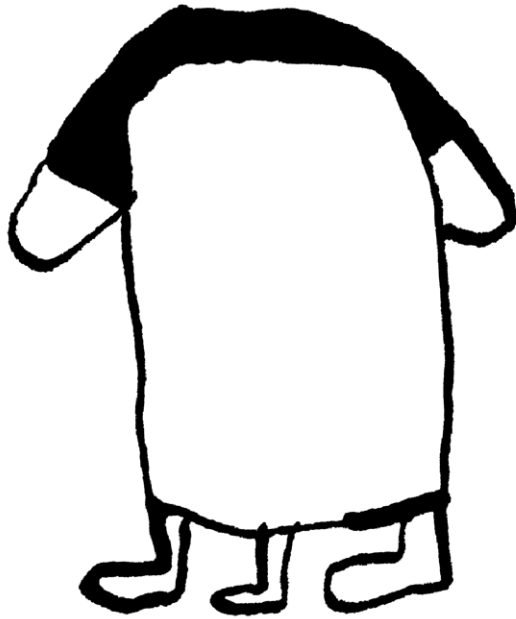

Animals are dancing on empty streets!

That's how I feel today!
